WORK EXPERIENCE

Suncorp Bank / ANZ Bank

Mar. 2026 – Present

Banking Consultant

Melbourne, Victoria

- Manage inbound customer interactions across everyday banking and lending services, delivering efficient and personalized support through a customer-first approach.
- Assist customers with account enquiries, transactions, account maintenance, product information, and digital banking support.
- Provide Level 1 lending servicing support, including home loan enquiries, repayment assistance, interest rate queries, fixed and variable loan servicing, offset account enquiries, package benefits, and general lending administration.
- Apply lending knowledge and servicing procedures to support customers with loan-related requests while maintaining accuracy, compliance, and responsible lending obligations.
- Explain banking products, processes, fees, and lending concepts in a clear and accessible manner to improve customer understanding and confidence.
- Conduct appropriate **customer identification and verification controls** to protect customer accounts and mitigate financial crime, identity theft, and unauthorised access risks.
- Apply **risk-based decision-making and fraud awareness** when identifying unusual customer activity, account behaviour, transaction concerns, and potential scam or fraud indicators, escalating matters through appropriate risk and fraud channels.
- Resolve customer concerns efficiently while balancing customer outcomes, operational risk, privacy obligations, and regulatory requirements.
- Identify and respond to potential **scam, fraud, and financial crime risks**, balancing customer protection, regulatory obligations, operational procedures, and customer experience.
- Maintain a **100% Quality Assurance (QA) score across five of six months**, demonstrating consistent adherence to quality, compliance, and customer service standards.
- Managed **2,200+ customer interactions within six months**, demonstrating the ability to operate effectively within a high-volume contact centre environment while maintaining service quality and accuracy.
- Support team capability through participation in the **Buddy Centre**, assisting with knowledge sharing, peer support, and onboarding of team members.
- Trained and authorised across **Term Deposits and Account Opening**, expanding product knowledge and supporting a broader range of customer needs.
- Maintain high-quality service standards within a performance-driven environment, contributing to team objectives, continuous improvement initiatives, and positive customer experiences.
- Maintain **RG206 compliance across lending-related customer interactions**, applying responsible lending requirements, verification procedures, and established servicing controls.
- Contribute to continuous improvement and operational effectiveness by identifying recurring customer issues, process opportunities, and potential control gaps within customer interactions.

PROJECTS

Strive Web Solutions

Jan. 2025 - Present

- Started a personal initiative to design and deploy professional business websites for local clients.
- Created the Strive splash page to represent brand vision and offerings using Vue.js and Bootstrap.
- Redesigned the website for Cranwell Collision Centre, improving layout clarity and enabling better customer contact across multiple locations.
- Focused on mobile-first design, semantic HTML, and client accessibility.
- Source Code: <https://github.com/NathanTrung/strive-splash>, <https://github.com/NathanTrung/cranwell-redesign>

Personal Website

Jun. 2024 - Present

- Developed a responsive, component-based portfolio site using Vue.js to showcase academic and personal projects.
- Implemented modular components, SEO best practices, and cross-browser compatibility.
- Hosted using Firebase, integrated with GitHub Actions for automated CI/CD deployment pipelines.
- Source Code: <https://github.com/NathanTrung/personal-site-2.0>

WhizKidTrains

Jan. 2024 - Dec. 2024

- Developed an educational Unity WebGL game tailored for neurodiverse learners, focusing on accessibility and educational engagement.
- Integrated Firebase Authentication, interactive minigames, and a central hub world.
- Collaborated in a year-long capstone project focused on inclusion, usability and technical innovation.
- Source Code: <https://github.com/NathanTrung/WhizKidTrains>

SwinBull

Jan. 2023 - Jul. 2023

- Created a dynamic cryptocurrency asset explorer with React, integrating real-time data from CoinGecko API.
- Built modular components with Node.js and RESTful API integration for live asset tracking.

N/A Movies

Jul. 2022 - Dec. 2022

- Designed a PHP + MySQL web app for online movie booking, enabling users to browse and reserve tickets.
- Implemented database schema design, authentication workflows, and client-side form validation
